PROFILE

Results-driven professional with 5+ years of experience at the intersection of technology, creativity, and strategy. Proven track record in managing cross-functional teams, leading product development lifecycles, and executing impactful marketing campaigns. Skilled in project planning, stakeholder communication, and aligning technical solutions with business goals. Experienced in both B2B and B2C environments, with a background in Unreal Engine development, virtual production, and digital marketing. Adaptable, detail-oriented, and focused on delivering value through innovation and collaboration.

WORK EXPERIENCE

2022-Present

Unreal Engine Developer

Moshpit Studios

- Led project planning and task execution for interactive virtual concerts and metaverse events.
- Collaborated with designers, developers, and marketing teams to ensure project goals were met on time.
- Collected and translated client requirements into technical deliverables, aligning with the product vision.
- Conducted detailed review and refined development workflows for improved efficiency.
- Supported feature planning and automation testing pipelines.

2020-2022

Technical Project Coordinator

TectBrains.co

- Managed end-to-end project lifecycle for website and app development projects.
- Acted as a liaison between clients and technical teams to maintain clarity and ensure successful delivery.
- Gathered business requirements and created technical documentation and timelines.
- Oversaw delivery schedules, resolved blockers, and ensured stakeholder satisfaction.
- Involved in marketing strategy, client outreach, and service pitching.

2018-2019

Junior Game Artist

Sitara Games

- Created visual assets (UI, characters, animations) while supporting game prototyping.
- Participated in product design and early-stage planning for 2D mobile games.
- Provided feedback on user experience and visual consistency.
- Mentored design interns and contributed to improving team output quality.
